NORTH-HOLLAND

Author Index—Volume 62

Alic, J.A., 147
Ascher, W., 107
Ausubel, J.H., 119
Ayres, R.U., 9, 115

Bowonder, B., 51
Brocklehurst, M., 239
Brunner, R.D., 73

Chacko, G.K., 41
Christodoulou, K., 203
Coates, J.F., 37, 97

Dator, J., 259
Dror, Y., 151

Gordon, T.J., 63
Grupp, H., 121

Halal, W.E., 131
Helmer, O., 33

Jensen, K., 203

Kash, D.E., 139
Kyriakou, D., 127

Linstone, H.A., 1, 79

Martino, J.P., 13, 125
Miyake, T., 51
Modis, T., 29, 111, 173
Muralidharan, B., 51

Nakićenović, N., 101

Pelc, K.I., 135
Phillips, F., 91
Podobnik, B., 155
Porter, A.L., 19, 143

Saleth, R.M., 263
Sharif, N., 219

Tidd, J., 239
Toma, L., 267

Vlahos, K., 203

Book Review Index—Volume 62

Chacko, G.K., *Targeting Strategies for Continuous Competitiveness* (Luigi Toma), 267

Grübler, A., *Technology and Global Change* (Jim Dator), 259

Malecki, E.J., *Technology and Economic Development: The Dynamics of Local, Regional, and National Competitiveness* (R. Maria Saleth), 263

Subject Index—Volume 62

Assumption drag
  common assumptions dangerous to our future, 97
  in economic development, 107, 115, 127
  famous bloopers, 91
  frequent cause of forecast failure, 91, 97, 107, 111, 115, 119, 121, 125, 131, 135, 147, 151
  why assumptions are a problem for futurists, 97

Bibliographic database, used to analyze trends in technology forecasting, 19

Biotechnological forecasting, growth area in technology forecasting, 29

Chief Technology Officers (CTOs), historic decision making, 41
Competitiveness, definitions and predictions, 127
Complexity science, implications for forecasting, 79
Computer simulations, importance in future technology forecasting, 63, 79

Decarbonization, trends and predictions, 101
Decision making
  historic, 41
  science-based predictions, 73
Delphi, past and present use of, 13, 37, 63
Development management, role of technological self-reliance in, 219

Energy resources, future availability, 101, 107, 155
Evolutionary theory, used to understand the problems of predicting future technologies, 51
Extrapolation without understanding, 139

Global energy shifts, 155

Malaysia, government policies for technology acquisition and implementation, 239
Mobile telecommunications industry, change from analogue to digital, simulation model, 203

National systems of innovation, reviewed, 239

Object-oriented simulation, to explore substitution between technologies, 203

Prosperity gap, caused by technology gap, 219

S curves, 9, 79
Service industries, growth in and future of, 127, 147
Social structure, "reversals" coming in the twenty-first century, 131
Stock market, technological forecasting applied to, 173

Technological capacity, widening gap between countries, 219
Technological forecasting
  future of the discipline, 1, 29, 33, 37, 51, 63
  history of the discipline, 1, 9, 13, 19, 29, 33, 37, 41
Technological Forecasting and Social Change, history of the journal, 1
Technology monitoring, key to foresight, 143
Threats and fear, role in forecasting, 119
Trends important to forecasting, 111, 125, 131, 135

Uncertainty, inadequacy of current forecasting methods in the face of, 147, 151
United Kingdom, mobile telecommunications industry, 203
